Health Administration Outlook

Employment of medical and health services managers is projected to grow 18 percent from 2018 to 2028, much faster than the average for all occupations. As the large baby-boomer population ages and people remain active later in life, there will be increased demand for healthcare administration and services. (US Bureau of Labor Statistics)

BLAZE YOUR TRAIL

Learning isn’t confined to a traditional classroom. Courses can be completed based upon your personal needs within the semester. We are here to lend you support every step of the way!

PROGRAM OVERVIEW

The Healthcare Administration BAS is a degree completion program designed for current healthcare employees seeking to advance their careers and increase their salary. The program is fully online and offers flexibility in scheduling. Students will develop necessary real-world skills to do the following:

- Adapt to new policies
- Communicate effectively
- Pay attention to detail
- Discuss staff issues professionally
- Lead, hire, and train staff
- Understand new technology
- Identify logical solutions to problems
- Listen with full attention
- Adjust actions for better collaboration
- Make appropriate decisions

PROGRAM REQUIREMENTS

- Hold an Associate of Science (AS) degree from a regionally accredited university, AND at least 6 months of relevant healthcare work experience, OR
- Hold an Applied Associate of Science (AAS) degree in a health science field from a regionally accredited college or university.
- Complete application and, as appropriate, provide proof of work experience.
- 3.2 Cumulative GPA

TO APPLY: APPLY.UTAHTECH.EDU

The BAS Health Administration class runs on a cohort model, with admission in both fall and spring. Students may choose to attend full or part time.

- 45 credits required for completion
- Average time to complete the program is 3 to 4 semesters

FINANCIAL AID AND SCHOLARSHIPS ARE AVAILABLE TO THOSE WHO QUALIFY.

OUR STUDENTS

“[In 2019] I moved to Southern Idaho which made this online program really convenient for me. I loved that it was all online which allowed me to complete my degree from a rural area. It was nice to stay connected with the University and other students pursuing the same degree.”
- Cassidy, Class of 2020
